

CRAVEN COUNTY SCHOOLS

Physician's Documentation for Medically Fragile

The Medically Fragile classification is for students who are unable to meet the attendance requirements due to a serious medical condition diagnosed by a physician. These students attend school when able but may have frequent absences. The student is responsible for making up missed work in a timely manner. Communication with the teachers is key to the success of a medically fragile student. Confirmation may be made with the referring medical provider overseeing the care to discuss the conditions of the absence.

Patient _____ **DOB** _____ **Male** ____ **Female** ____

Diagnosis _____

Is the condition contagious? Yes ____ **No** ____
